Milltown Green Team promotes safe walking, biking to school

MILLTOWN — The borough Environmental Commission’s Green Team wants to make sure children in town are able to walk or ride their bicycles to school safely.

The Green Team announced Monday it is working on a “Safe Routes to School” project, funded by Sustainable Jersey and in cooperation with Milltown Public Schools.

The purpose of the project is to examine the safety of children walking or bicycling to schools in the borough. The Green Team will study how many children walk or ride their bike to and from school currently, how safe the various routes are, and how they might be made safer. In collaboration with the schools, the team will encourage these modes of travel by holding walk-to-school and bicycle-to-school events, as well as a public meeting to discuss the process.

Later in the year, the Green Team will measure if any change has occurred in the number of children walking or bicycling to school.

Volunteers are being sought to help with various parts of the project. A public meeting to discuss the details and to ask for volunteers to help with the project and with specific activities will be held on April 3 from 7:15 to 9 p.m. at Borough Hall, 39 Washington Ave. Light refreshments will be provided.

Those wishing to attend the meeting on April 3 or who seek further information may email greenteam00850@gmail.com, leave a message at 732-846-4476 or leave a written message at the borough clerk’s office.

Not every used Lincoln can be a Certified Pre-Owned Lincoln.
