

2018 NEW JERSEY SUSTAINABILITY SUMMIT

SAVE THE DATE: JUNE 21, 2018
THE COLLEGE OF NEW JERSEY

2018 SUMMIT SPONSORSHIP

How is New Jersey doing in addressing our most pressing sustainability issues? What can local governments and communities do about it? With 445 municipalities and 737 schools from 300 districts participating in Sustainable Jersey, now is the time to ask big questions.

In New Jersey, we're serious about achieving a sustainable state. We are setting goals for the future, and giving communities practical tools they can use to make progress. Each year, over 300 people attend our annual Sustainability Summit, helping us build consensus and implement the future we think New Jersey deserves.

This year, we have been digging deeper into the water dimension and exploring what communities can do in this area to help put our state on the right track towards meeting our goals. The 2018 Summit will preview the Sustainable Jersey Gold Star Standard for Water, highlight successful case studies from around New Jersey, and host sessions that focus on business contributions to sustainability across the state, community-wide approaches to energy, strategies to reduce single use plastics, and more.

Please consider supporting this event through our sponsorship opportunities. Each sponsor will receive one ticket to the Summit in addition to the listed benefits.
