

After Hurricane Sandy

Helping New Jersey
Recover. Restore. Rebuild.

Are you a New Jersey resident, business owner or local government official recovering from the damage of Hurricane Sandy?

New Jersey's Clean Energy Program™ is here to help.
Learn more about enhanced financial incentives that will help you recover.

Homeowners

If your storm damage resulted in the need for new appliances, be sure to look for high-efficiency options that will earn you valuable rebates.

- Furnaces or Boilers
- Cooling Equipment
- Water Heaters
- Clothes Washers

Businesses

New Jersey's energy efficiency incentives have been increased by 50%, and an entire new line of incentives are now available to help with the replacement of food service equipment.

Local Governments

Make sure your homeowners and businesses are aware of enhanced temporary rebates due to Hurricane Sandy. And, don't forget municipal buildings (including schools) can also participate in *New Jersey's Clean Energy Program*.

Take the first step.

Visit NJCleanEnergy.com/SANDY or call 866-NJSMART.

New Jersey's Clean Energy Program is a statewide program that offers financial incentives, programs and services for eligible New Jersey residents, business owners and local governments to help them save energy, money and the environment. The enhanced incentives provided by the storm response program are available through June 30, 2013 or until funds are exhausted, whichever comes first.

Your Power to Save

Call us at 866-NJSMART for information on these and other energy-saving programs for your home or business.
