

UPCOMING

2023 Delaware Basin Stormwater Virtual Training Series

Free. Lead support is provided by the William Penn Foundation.

Registration will be limited to 50 registrants per training. Priority seating will be given to individuals who work in the Delaware River Basin.

To register, click on the topics below.

JAN 10, 1-3PM (EST)

MS4 PERMIT BASICS

Attendees will learn the basics of this federal stormwater management permit program including its importance, what entities are required to comply with it, and the programs components. Because the NPDES MS4 permit program is administered on the state level, both the Pennsylvania and New Jersey state requirements will be covered.

INTRODUCING OUR SPEAKERS:

BETH UHLER

Pennsylvania Director,
Center for Watershed Protection

CHRIS OBRUPTA

PhD, PE, Extension Specialist in
Water Resources,
Rutgers Cooperative Extension
Water Resources Program

JAN 17, 1-3PM (EST)

DESIGN WITH MAINTENANCE IN MIND

This presentation will discuss the ways in which good design can lead to easier, less expensive stormwater infrastructure maintenance – and bad design can do the opposite. Participants will learn the key design and programmatic elements that affect how stormwater practices can be maintained after construction.

INTRODUCING OUR SPEAKERS:

GREG HOFFMANN

PE, Director of Stormwater
Services, Center for Watershed
Protection

KATE AUSTIN

Green Infrastructure Asset
Coordinator, City of Lancaster, PA

JAN 24, 1-3PM (EST)

GREEN STORMWATER INFRASTRUCTURE MAINTENANCE

Without routine maintenance, green stormwater infrastructure practices are likely to fail. Maintenance is also typically required by local or state governments. This training will review examples of maintenance activities, both routine and restorative, for a variety of stormwater practices.

INTRODUCING OUR SPEAKERS:

CAROL WONG

PE, Senior Water Resources
Engineer, Center for Watershed
Protection

THOMAS FLYNN

M.P.A., CFM Environmental
Specialist, Division of Engineering,
Township of Woodbridge, NJ

JAN 31, 1-3PM (EST)

CODES AND ORDINANCE REVIEWS

Learn about the 22 model development principles for site design from CWP's Better Site Design Handbook. These principles act to reduce impervious cover, conserve open space, prevent stormwater pollution, and reduce the overall cost of development. Hear about a tool for evaluating local development regulations, and a local case study on removing barriers to implementing green infrastructure.

INTRODUCING OUR SPEAKERS:

JULIE SCHNEIDER

Watershed & Stormwater Planner,
Center for Watershed Protection

SUSAN MYEROV

Watersheds Program Director,
Pennsylvania Environmental
Council

FEB 07, 1-3PM (EST)

STORMWATER FUNDING AND FINANCING

Learn about a variety of options to fund stormwater projects, including operation and maintenance. Also, how the Federal Infrastructure Investment and Jobs Act will help fund stormwater improvements through State Revolving Funds. Hear about what utilities fees can be used for, as well as other innovative funding opportunities.

INTRODUCING OUR SPEAKERS:

AMANDA POLLACK

PE, Water Resources Engineer,
Center for Watershed Protection

STEPHEN NORCINI

PE, Township Engineer,
Radnor Township, PA

OFFICE HOURS

Thursdays, 1-2pm (EST)

Office hours are held the Thursday after each training and hosted by that week's CWP trainer. These are times when CWP staff are available for questions and conversation in a less formal setting. They're casual — bring questions you have for the presenter, challenges you're facing with a current project, and/or future work you'd like guidance on.
