Hoboken started Open Streets this week after a short pilot. Other towns are considering closing streets or making them Shared Streets that are closed except for local traffic only.

I also like what WI is doing with calling them "Active Streets" - <https://activestreets.mailchimpsites.com/>

How are towns dealing with the spacing issue with outdoor dining? We're considering an outdoor "food court" on a football field to get the proper spacing, but don't know town policies for this yet...

More cars are on the road with more things opening up

**From Kathleen Caccavale: 04:22 PM**

more road rage

**From Janet Heroux: 04:23 PM**

more serious speeding on our street

**From Leigh Ann Von Hagen: 04:29 PM**

Some towns are creating "parklets" in parking spots to create outdoor areas for dining that helps with social distancing.

Thanks.

**From Janet Heroux: 04:36 PM**

Our parklet in Princeton is very popular and may not encourage distancing. You'd have to take a lot of parking spaces, no? Parklets and pop-up are very pleasant and are at least one option.
