Board of Public Utilities

aka: ESIP;ESCO; P.L. 2012, c. 55

ENERGY SAVING IMPROVEMENT PROGRAMS
What ESIP is all about

- Retrofitting public facilities with Energy Conservation Measures (ECM) without new capital investment
  - Savings from reduced energy use pays for the improvements = No New Money!
- Applies to all government contracting units, including school districts
ECM Categories:

- Distributed generation (solar, wind, geo, bio…)
- Major HVAC (capital) and minor HVAC (non-capital)
- Energy efficiency, demand response equipment
- Non-energy savings related (building envelope)
- Future capital replacements
- Standalone lighting improvements
- New energy related capital improvements, i.e., new air conditioning installation Must be funded separately from non-operating (i.e., capital improvement) funds
- Water savings, i.e., low flow fixtures
Develop the ESIP

- **Step 1** – Perform independent audit
  - Third party – not the ESCO

- **Step 2** – Hire ESCO or Mechanical Engineer to prepare Energy Savings Plan
  - If competitive process, use the audit as basis for proposals
  - ESCO must agree to provide an optional energy savings guarantee

- **Step 3** – Develop Energy Savings Plan
  - Identify the Energy Conservation Measures and projected energy savings
  - Savings based on BPU adopted standards
How ESIP is Funded

- An ESIP is either a Self Refunding Bond or Lend-Lease Operation
- Capital Project Energy refunding comes from the energy savings that were budgeted as energy line item in the general budget.
- Incentives from Clean Energy
- Demand Response Savings through lower energy use.
- Energy Resiliency Bank
- Federal Tax Incentives from (Lend-Lease programs)

- **ROID Grants cannot be combined with ESIP**
Contracting Options Available
ESCO Option

Plan A – ESCO Option

- ESCO is a single contractor that develops & manages the process, including offering guaranteed savings.
- Use public bidding or competitive contracting process to award a contract to a firm (ESCO) to develop & manage construction of improvements.
- ESCO must give a guarantee of savings opportunity to government entity.
- Contract award is for “most advantageous, price and other factors considered process” or “lowest responsible bidder.”
Contracting Options Available

DIY Model

- Plan B – DIY Model

- Hire an energy consultant to develop your Energy Savings Plan
- Develop your own specs and bid the job…
  - Or hire professionals to provide that service
- Rely on built-in verification process to assure savings
Contracting Options Available

Hybrid Model

- Plan C – Hybrid Model – Combination of ESCO & DIY
- Hire an Architect or Mechanical Engineer to manage an ESCO project
- Develop a plan that the professional will put out to bid as a RFP
- Allow the professional to take the entity (gov’t or school) through the interview process
- Allow the professional to be the liaison through the project to the ESCO
ESIP is a Funding Program

- Requirements for an Energy Savings Plan
  - No Negative Cash Flow
  - No Capital Cost Avoidance (except on a very limited basis)
  - No use of SREC’s in Cost Savings Calculations
  - Independent Third Party Review of Plan
  - Maximum 15 Year Pay Back Standard Plan
  - Maximum 20 Year Back with Combined Heat & Power Plan
BPU Jurisdiction of ESIP

- **Guidelines – The Final Word**
- RFP must be approved by the BPU
- Mandatory pre-proposal conference for interested, DPMC certified ESCO’s
- BPU will receive, at a minimum, a CD or Flash Drive copy of each phase of the proposal and contract process
- Investment Grade Audit (IGA) for the Energy Savings Plan
- After Independent Third Party Review of Plan, BPU must approve plan
- BPU has complete authority to deny any phase and Clean Energy Incentives when deemed necessary
Where is ESIP Program at Since 2012

- LGEA over 2400 building in the State of New Jersey can be audited.
- LGEA over 300 government entities, Municipalities, school districts and state agencies have been audited.
- Over 30 school districts have either started or are in the process of completing an ESIP project.
- Several large cities have started the ESIP process with bidding using the RFP provided by the BPU.
- Clean Energy Program is fully funded to help the ESIP program.
- Several school districts have used CHP to extend financing for 20 years without Clean Energy incentives.
Getting Started

Start with an Energy Audit:

Issue a RFP for a Energy Cost Savings Plan: Boiler Plate Available
http://www.njcleanenergy.com/commercial-industrial/programs/energy-savings-improvement-program

Contract Issued
Work Begins
Energy Costs Drop
Savings Begin
