Program Updates
2018 - 2020
What is a Retired Action?

• Capability implemented in 2016
  • Needed to keep actions current with best practices while being sensitive to the embedded base of approved actions.

• Protocol
  • A retired action means that applicants are no longer able to apply for points for that action.
  • A previously approved submission for a retired action will remain in a municipality’s certification application until it expires in a “read only” mode.

Site Plan Green Design Standards

- This action is retired and can no longer be modified
- Last updated 12/31/19
- Expired on 12/31/19

2020 Census Complete Count Initiative
Why An Accurate Census Count is Important

$23 billion in federal funding for New Jersey depends on Census counts, like SNAP, transportation planning, Environmental Programs, and more.

Two fewer representatives in Congress and two fewer electoral votes than in 1990.

Important to improve the count, especially in hard-to-count communities, across the state for full representation so communities can plan and manage public goods.

Information annotated from Advocates for Children of New Jersey
Role of Green Teams & Getting Started

As a **trusted community voice**, green teams can help improve participation rates by sharing information about the importance of an accurate and complete count.
