2013 Sustainable Jersey Small Grants Program \$10,000 Grant Application Proposal Narrative Borough of Maywood Green Team

The Green Team of the Borough of Maywood obtained private grant funding to construct a community garden during the fall of 2012. The Green Team secured and designated a plot of land owned by the Borough of Maywood as the "Maywood Community Garden and Tree Farm." The Green Team constructed 10 raised garden beds and reserved a section of the Maywood Community Garden for use as a tree farm.

During the first few months of 2013, the Maywood Green Team circulated the following double sided trifold brochure to volunteer and youth groups throughout the Borough of Maywood:

Several local organizations responded, including the Maywood Girl Scouts, Maywood Boy Scouts, Maywood Senior Citizen Club and Maywood Public Schools. These groups and others utilized the garden beds to raise vegetables and flowers throughout the summer of 2013. The Community Garden was a huge success. The Community Garden was utilized to educate various groups about the benefits of sustainability and local gardening. The Maywood Green Team themselves raised over 100 pounds of vegetables in the Community Garden which were donated to a local food pantry during the year.

The Borough was awarded a \$2,000 under the 2013 first cycle of the Sustainable Jersey Small Grants Program. The Borough has established a specific area for the growth of its own shade trees. The cost of saplings is significantly less than mature trees which are planted throughout the town. Therefore, the Borough, in the long run, will save funds by growing its own trees which will be transplanted throughout the town. Also, the new tree farm will enable the Borough to plant and raise native species and evergreen trees which are not normally planted in the right of way areas. These native and evergreen trees grown in the Maywood Community Garden and Tree Farm are planned to be transplanted to parks and other municipal recreation areas.

It is the intention of the Maywood Green Team to again share the Community Garden beds with local organizations and youth groups and to begin the planting of saplings within the designated tree farm area of the Community Garden during 2014. The Green Team is also looking forward to scheduling various lectures and demonstrations at the Community Garden during 2014 to expand its mission to educate the public on the benefits of sustainability, recycling and local gardening.

One of the difficulties the Green Team has had during the last season was providing water to the Community Garden. Since the Community Garden does not have an irrigation system, the Green Team must rely upon the local DPW to utilize a watering truck to provide water. Several members of the Green Team also utilize a water fountain from an adjacent park to water the garden. The current watering system is problematic to say the least. Also, the utilization of a watering truck leads to inefficient watering and does not lend itself to the sustainable model that the Green Team seeks to follow.

As a result, the Green Team, working directly with the Borough and Borough Engineer, has established a plan to utilize the existing water line feeding the adjacent park and to construct an irrigation system which will efficiently provide water to the Community Garden's garden beds and tree farm area. Furthermore, with the construction of an irrigation system, the Green Team intends to utilize rain barrels to collect and effectively distribute rain water to the Community Garden.

The following photos reveal the progress made thus far at the Maywood Community Garden:

Initial construction of Community Garden and Tree Farm (Fall 2012)

Planting within new Community Garden and Tree Farm (Spring and Summer 2013)

Construction of Fencing for Community Garden and Tree Farm (Early Fall 2013)

Since its inception, the Maywood Green Team has been instrumental in conducting an energy audit of Borough facilities, procuring grant funding to install solar panels on the Municipal Complex, establishing a bicycle and pedestrian safety study prepared and enrolling the Borough in the Safe Streets to School Program.

The Green Team will continue to utilize the Community Garden to present lectures and instructional seminars to the public in order to promote recycling, renewable energy programs, home gardening, mulching and composting programs and to potentially establish a farmers market / vegetable exchange program at the community garden.

The proposed irrigation system involves the installation of underground piping, a new water meter and spigot and extensive drip irrigation system for each garden bed in the Community Garden. The expense of an irrigation system is prohibitive at this time, however, the need for an irrigation system is critical to the future of the Maywood Community Garden and Tree Farm. Without the ability to properly provide water to the Community Garden, its ability to continue and grow is questionable. The installation of an irrigation system will insure that the Community Garden and Tree Farm continues to be the success it was last year and enables the Green Team to expand its programs on sustainability and local gardening for the residents of the municipality.

The Maywood Green Team is seeking a \$10,000 grant under 2013 Sustainable Jersey Small Grants Program in order to fund the installation of the needed irrigation system for the Maywood Community Garden and Tree Farm.

Maywood Green Team Activity 2012-2013

Since its inception, the Maywood Green Team has been instrumental in conducting an energy audit of Borough facilities, procuring grant funding to install solar panels on the Municipal Complex, establishing a bicycle and pedestrian safety study prepared and enrolling the Borough in the Safe Streets to School Program.

During the last two years, the Green Team has been very active in Maywood. The Green Team participated in several paper shred and electronic recycling town wide events during 2012 and 2013. However, its most aggressive undertaking was started during the fall of 2012. During that time, the Green Team secured a \$3,300 private grant through The Home Depot which was utilized to construct a community garden / tree farm on property owned by the Borough. The Green Team constructed 10 raised garden beds and storage shed for the Maywood Community Garden. In 2013 the Community Garden was utilized by local volunteer and youth groups to raise hundreds of pounds of vegetables and many different species of flowers.

The Green Team also is working with the Borough Shade Tree Commission to utilize a designated area of the Community Garden for a tree farm for the raising of various specimen trees which are ultimately to be transplanted throughout the Borough.

The Maywood Green Team is looking forward to expanding upon its progress during the last two years during 2014.

- B. Additionally, the Borough of Maywood has been mandated, by Federal Regulation, to implement and maintain a program of substance abuse testing on all employees whose jobs are covered under the Federal Department of Transportation regulation 49 CFR Parts 40, 199, 382 and 391.

Department of Public Works Sanitation workers, roadmen, mechanics building and ground workers, foremen and supervisors all of whom shall be included in the test pool.

"Fail a drug/alcohol test" means that the confirmation test result shows a positive evidence of the presence of a prohibited drug/alcohol in an employee's system.

"Pass a drug/alcohol test" means that initial testing or confirmation testing does not show evidence of the presence of prohibited drug/alcohol in an employee's system.

"Prohibited drug" means any of the following substances specified in the Schedule I or Schedule II of the Controlled Substances Act, (21 USC 801.812 1981 and 187 CUM.P.P.): Marijuana, Cocaine, Opiates, Amphetamines and Phencyclidine "PCP".

III. Drug/Alcohol Tests Requested.

A. Pre-employment Testing.

No employee will be hired unless that person passes a drug/alcohol test or is covered by a recognized anti-drug/alcohol program, documentation of which must be supplied to the Borough of Maywood Superintendent of Public Works and presented to the Mayor and Council.

B. Post-accident Testing.

As soon as possible but no later than 2 – 8 hours after an accident occurs during employment hours, any employee whose performance either contributed to the accident or whose performance cannot be completely discounted as a contributing factor to the accident shall be drug/alcohol tested. The decision to test or not to test shall be in the sole discretion of the employer in consultation with the Borough Attorney when time permits, based upon the base information available immediately after the accident. The supervisor in conjunction with any other investigative personnel shall fully document the basis upon which a decision to test or not to test is made. In the case of an accident involving a fatality or involving the issuance of a citation to a Borough of Maywood employee, the involved employee shall automatically be tested. All covered employees shall immediately report all accidents or citations issued during the employee's course of his/her shift regardless of the type or ownership of vehicle involved in the accident or the citation.

C. Random Testing.

At least 50% of all employees shall be drug tested and 25% of all employees shall be alcohol tested every 12 months. The employees for testing shall be selected by using a random number table that is matched with an employee's identification number. During the first 12 months following the institution of random drug/alcohol testing, the total number of tests conducted shall include at least 25% of the employees required to be tested.

D. Testing based on reasonable cause.

Whenever there is reasonable cause to believe that an employee is using a prohibited drug or alcohol, such employee shall be drug/alcohol tested. The decision to test will be based on a reasonable belief that the employee is using a prohibited drug or alcohol on the basis of the specific contemporaneous, physical, behavioral or performance indicators of probable drug/alcohol use. One supervisor of the employee trained in detecting possible drug/alcohol use symptoms shall substantiate the decision to test in consultation with the Borough Attorney.

E. Rehabilitation.

All employees are entitled to voluntarily participate in the "Employee Assistance Program" regardless of a positive test result being received. However, if there is a positive test result, participation in the "Employee Assistance Program" or an alternate program approved by the Mayor and Council of the Borough of Maywood shall be a prerequisite to continued employment. Refusal to enroll in a program or to complete a full course of rehabilitation shall be cause for immediate termination of services. A positive alcohol test is one with a level of .040 or greater. Employees with a pattern of reading between .020 and .039 will also be subjected to enrolling in a mandatory counseling program.

F. Discipline.

In addition to completing a required course of rehabilitation, employees shall be subject to the following discipline:

1.Following confirmation of a positive test, there shall be a minimum five (5) day suspension. The suspension shall remain in full force until there is a negative retest provided to the Borough of Maywood through a certified laboratory (all costs of testing to be borne by the employee) but failure on the part of the employee to present a positive test result within six (6) weeks from the original incident date shall automatically result in termination of services. After two weeks the Borough of Maywood reserves the right, for reasons of operational efficiency, to fill the suspended employee's position and in such case, the suspended employee would be entitled to the next available opening providing all other conditions (rehabilitation and positive test result) are met.

- 2. In the case of an alcohol test result between .020 and .039, the penalty would be limited to a suspension for the remainder of that day's work shift unless a pattern developed.
- 3. Employees found to be in violation of this policy (confirmation of positive drug/alcohol test) on a second occasion will be immediately dismissed.
- 4. Employees who have been found to have refused a drug/alcohol test in violation of this policy will be immediately dismissed.
- A. Testing after rehabilitation.

A person who returns to duty as an employee after rehabilitation shall be subject to a reasonable program of follow-up drug/alcohol testing without prior notice for not more than sixty (60) months after his or her return to duty.

B. Administration.

The Borough of Maywood had designated its Joint Insurance Fund to administer the Borough's anti-drug/alcohol program.

Re:

2013 Sustainable Jersey Small Grants Program

Application for \$10,000 Grant - Borough of Maywood

Dear Sir / Madam:

Kindly accept this letter in support of the Borough of Maywood's Application for the second round of the 2013 Sustainable Jersey Small Grants Program. The Borough of Maywood has maintained a very active Green Team and has been registered with Sustainable Jersey for several years. We are striving to submit all necessary documentation in order to receive certification approval from Sustainable Jersey this year.

The Borough of Maywood received private grant funding to construct a community garden during 2012. Maywood was fortunate to be awarded a \$2,000 capacity building grant which put to good use in assisting us to substantially complete construction of the Borough's community garden / tree farm during 2013. The Maywood Green Team constructed 10 raised garden beds which were utilized by volunteer and youth organizations during the planting season to raise vegetables and several varieties of flowers. Over 100 pounds of vegetables were donated by the Maywood Green Team to a local food pantry.

The Borough of Maywood has been designated a "Tree City" for 30 years in a row by the Arbor Day Foundation based upon a vigorous attention to shade tree growth and preservation along Borough streets and within Borough parks. The Green Team has also designated a large area of the Maywood Community Garden as a tree farm for the growth of sapling trees which will be transplanted throughout the Borough.

We hope to secure the \$10,000 grant award in order to install an irrigation system for the Maywood Community Garden and Tree Farm which is critical in order to help our current Community Garden continue to grow. We are hopeful that you look favorable upon our application. If you have any questions or require additional information, please do not hesitate to contact me.

regg A. Padovano, Mayor
